

« Junior VoIP Engineer » - NL (Utrecht) full-time

Your future Job

In our offices in Utrecht, we are looking for a dedicated and experienced future colleague to join our Integration & Support (I&S) department. As VoIP Engineer you contribute to the solution implementation and support for our customers. While entering Netaxis, you will be part of a team of Integration Engineers, Support Engineers, Solution Architects and Project Managers and you will mainly have interactions with your direct colleagues and our customers.

Netaxis offers a range of Telco products which are aligned with a strategic vision and matches the clients' needs. The company is committed to fulfil the highest expectations of our customers.

The projects are operational in nature, involving telecom technologies and application development.

Our Dutch office is based in Utrecht. You will also be sharing your time on site with the customers and travelling to other NetAxis offices and sites (25% of your time).

What will be your roles?

- You will participate in the design and engineering of new solutions and products (design is each time specific as linked to what surrounds in our customers' environment).
- You integrate, test and validate the different VoIP equipment's.
- You will bring into service new platforms and solutions.
- You analyse and debug issues and follow-up the interactions with the suppliers on a reactive & proactive way of work.
- You act and interact as member of the support team, meaning that you monitor the equipment and take necessary actions to solve critical conditions of operations.
- You follow the evolution of the VOIP/telecom technologies and learn continuously.
- You will assist sales team in technical pre-sales activity & by providing comprehensive sales speech.

Working with us

Netaxis Solutions, founded in 2010 by four telecommunication engineers, has grown to now more than forty collaborators.

Netaxis Solutions is a company committed to excellence in service, specialized in consultancy, support & product development for large Voice over IP networks. Netaxis is present in Belgium, Italy, the Netherlands, the U.K and France.

Our team of is made up of talented VoIP & telecom engineers who provide consultancy services, design solutions and develop products that are deployed in the core network of our clients.

Netaxis is not only innovative in its products and services but also in its organisation. You will work in a self-managed environment where collaboration is highly valued and your input truly considered. Netaxis is organized according to Holacracy®, to allow autonomy and distribute power throughout the organization.

Our clients are major telecom operators and large enterprises mainly based in Western Europe & EMEA countries. They are at the centre of all our concerns and know that they can rely on us.

Who are you?

- You have an excellent Knowledge of VoIP protocols SIP, RTP and H248.
- You have a very good knowledge of network technologies LANs, IP switching/routing.
- Your knowledge about IMS architecture is more than welcome as well as your knowledge about Session Border Controller and application server equipment.
- You can easily understand low-level design documents and existing network topologies.
- You are eager to travel on a 25% base to visit our customers mainly.
- You preferably hold a University degree either in Telecommunication Engineering or in Electronics Engineering.
- You hold a very good command of English. Any additional language is a plus.
- You preferably have a proven experience of 3 to 5 years as VoIP Engineer or in a similar role.
- You feel comfortable to handle a very good communication and interpersonal relation skills in an international environment.
- You interact with our customers with the envy and the focus to make them satisfied.
- You systematically analyze problematic situations and are good at prioritize urgencies.
- You act autonomously and perform with rigor.
- You show proactivity and responsivity.
- You are a good team player, solidarity with your colleagues is part of the values you share.
- You are dynamic, flexible and creative in your area of field.

What NetAxis Solutions offers you

- A great chance to join our Dutch offices, in Utrecht for a full-time position!
- The opportunity to work in a team who practices mutual respect and support.
- A growing innovative company where you will have the freedom to develop your talents in a self-managed structure.
- A place where quality and your creativity really count.
- Real possibilities to upgrade your competencies thanks to training & mentoring.
- Real career possibilities to develop either your soft skills or technical ones and grow up together with the company itself.
- An attractive salary package including a company car, IT tools to help you performing your job's expectations and a large social plan coming along with trainings & certification programs.
